Project Name : Udemy

Over view

   Udemy is an online learning and teaching marketplace with over 204000 courses and 54 million students. Learn programming, marketing, data science and more.

   Udemy is a platform that allows instructors to build online courses on their preferred topics. Instructors can also engage and interact with users via online discussion boards

   Udemy also offers Udemy Business (formerly Udemy for Business), With Udemy Business, organizations can also create custom learning portals for corporate training. For smaller companies, Udemy offers a Udemy Team Plan that is a limited seat license but identical content to that of Udemy Business.

Page Structure

1. Navigation Bar (on top)

    a. Udmey Logo

    a. categories

    b. search bar

    e. cart symbol

    f. login

    g. signup

    h. language symbol

2. Course content

    A broad selection of courses

3. Students are viewing

    Most watched videos by students

4. Top categories

5. Featured topics by category

6. Become an instructor
